

Workflows

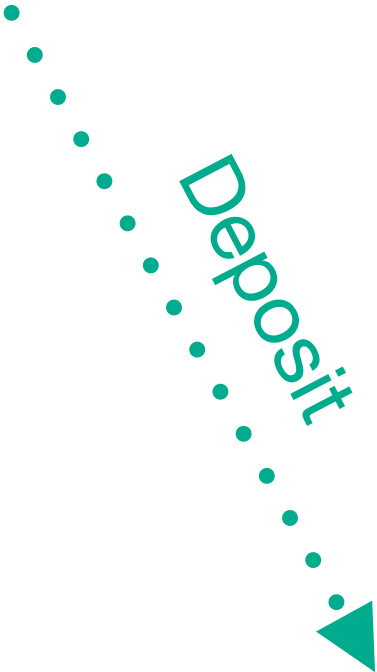

```
public void transfer(Account from,  
                    Account to,  
                    String refId,  
                    Amount amount) {  
  
    accounts.withdraw(from, amount, refId);  
    accounts.deposit(to, amount, refId);  
  
}
```

Activities

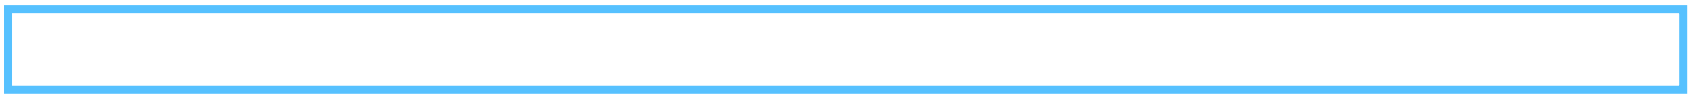

```
public class TransferActivitiesImpl implements TransferActivities {  
  
    @Override  
    public void withdraw(Account account, Amount amount, String refId) {  
        // ...  
    }  
  
    @Override  
    public void deposit(Account account, Amount amount, String refId) {  
        // ...  
    }  
  
}
```
